

ARLINGTON CONSERVATION COMMISSION

PREPARATION and FILING INSTRUCTIONS

For Notice of Intent (NOI) and Abbreviated Notice of Intent

Notify the Arlington Conservation Office (781-316-3012, email cbeckwith@town.arlington.ma.us) when you intend to file for a permit to do work under the State of Massachusetts Wetland Protection Act (hereafter “**ACT**”) and/or the Town of Arlington By-Law for Wetland Protection (hereafter “**BY-LAW**”) for a pre-filing consultation and hearing date. The applicant will be assigned a date, time and location for the public hearing so this information may be incorporated into the abutter's notification which, according to the ACT, must be mailed the day of filing at the Conservation Office. The ACT, its regulation, forms and instructions are available from the Department of Environmental Protection (DEP) at 617-654-6500 or at <http://www.state.ma.us/dep/brp/ww/wwforms.htm>. The same NOI form may be used for filing under the By-Law.

The internet address for the Massachusetts wetlands Act is <http://www.mass.gov/legis/laws/mgl/131-40.htm> and the Massachusetts wetlands Regulations is www.state.ma.us/dep/brp/ww/regs.htm. Arlington’s Wetland Protection Bylaw and Regulations are available at http://www.arlingtonma.gov/Public_Documents/index. Local regulations for the Wetlands Protection Act explaining Consultant fees have also been promulgated.

I. FILING AND PUBLIC HEARING PROCEDURES

A. Forms to File:

Review the ACT and its Regulations and the BY-LAW and its Regulations to determine which form should be used for the proposed project: **Notice of Intent** (hereafter **NOI**) or **Abbreviated Notice of Intent**. Since the ACT and the BY-LAW are administered concurrently by the Commission, it is necessary to complete only one applicable form when filing under both laws. Note that copies of some forms must also be filed with the state Department of Environmental Protection in order to obtain a file number. A file number is needed for the Commission to issue a permit decision.

See Appendix 1 for checklist of material to file and Appendix 2 for the number of copies to file.

B. Additional Material:

After review by the Conservation Commission and staff, additional material may be requested prior to the public meeting. If there is time, it may be incorporated into the plan and information. Additional information may also be requested by the Commissioners as a result of the presentation at the public hearing.

Omission of information at any stage may require that the public hearing be continued pending receipt of the information. If the applicant fails to provide the requested information, the Commission may deny the permit.

C. Public Hearing: A public hearing is held for each filing where the application is presented to the Commission and the public by the applicant and/or representative/s. The plans for the presentation should be colored/shaded so pertinent features are clearly visible to the Commission and the public. As required by law, notice of this hearing is given as follows:

1. **Notification to Abutters by Applicant** - As required in the ACT, notification of the public hearing must be mailed, at the expense of the applicant, to all abutters within 100 feet of the property the day of filing the NOI. A certified abutter's list must be obtained from the Town Assessor's Office. Please see "Appendix 4" for the format to be used for this notification. A copy of this notification and the certified abutter's list, and a signed 'Affidavit of Service' (Appendix 5) must be submitted as part of your Notice of Intent package. The Commission generally also requires similar abutter notification under the BY-LAW, which may be done in conjunction with notification under the ACT.

C. 2. **Legal Notice** - Notice of the date, time and place of the public meeting must be placed in a local newspaper (usually, *The Arlington Advocate*) by the Conservation Office at the expense of the applicant. In order for this to happen, the applicant shall sign and submit to the Conservation Commission Agent the Legal Notice Charge Authorization Form. (See APPENDIX 6) at least 14 days prior to the date of public hearing (due to the Arlington Advocate's schedule).

D. **Schedule Planning:**

1. **Public Hearing** - The Commission meetings generally are held first and third Thursdays of each month. Check with the Conservation Office at 781-316-3012 or email cbeckwith@town.arlington.ma.us for the meeting sequence. Copies of the Notice of Intent or Abbreviated Notice of Intent must be filed with the Commission office at least 10 business days before the meeting at which the project is scheduled to be presented.
2. **Site Visit** - The Commission may call for a site visit during evenings or weekends before closing the public hearing. The applicant or representative should call the Conservation Office at 781-316-3012 or email cbeckwith@town.arlington.ma.us to coordinate the site visit.
3. As described in I.C.2. above, due to its publishing deadline and schedule, legal notices must be submitted to *The Arlington Advocate* at least fourteen days before the public hearing.

E. **Filing Fees:** See APPENDIX 3 for fee schedules.

II. RESPONSIBILITY OF THE APPLICANT

A. **Preparation of Application Materials:** See APPENDIX 1 for Checklist.

B. **Notification of Abutters:** See Public Hearing I.C.1. above and App. 4 and 5 below.

C. **Site Flagging Prior to Filing and the Public Hearing**

It is useful to have flagged stakes installed at the project site for the Commission's site visit to mark the following features:

- 1) the wetland boundary with the flags numbered corresponding to the numbers shown on the plan; and
- 2) the corners of proposed buildings and drainage systems and delineation of roadways nearest the protected resource areas, with the specific location noted on the flags to correspond to the plan.

D. **MA National Heritage & Endangered Species Program**

If applicable, submit a copy of the Notice of Intent. (See *NOTE below) A copy of the current Estimated Habitats of Rare Wetlands Wildlife & Certified Vernal Pools Map for Arlington is available for review in the Conservation Office (781-316-3012, email cbeckwith@town.arlington.ma.us). Mail the Notice of Intent to: **Natural Heritage and Endangered Species Program, Massachusetts Division of Fisheries and Wildlife, Route 135, Westboro, MA 01581.**

E. **US Army Corp of Engineers Permit**

If applicable, submit a copy of the Notice of Intent. (See *NOTE below).

F. **401 Water Quality Certification**

Required on notification from DEP.

G. **DEP Division of Waterway M.G.L. 91 License**

Required on notification from DEP or Arlington Conservation Commission.

***NOTE:** Although the instructions detailed in this document generally incorporate all of those included in the ACT's Regulations, "General Instructions for Completing Notice of Intent" (310 CMR 10.99), that document should also be reviewed. Specific detail for items D. through G. are included in that form.

III. THE DECISION

The Commission shall make a decision on the Notice of Intent based on information and material filed, the site visit and information presented at the meeting. If more information is needed, the meeting may be continued in compliance with applicable State and Town laws. If the applicant fails to provide the requested information, the Commission may deny the permit. A file number and any comments from DEP must be received in order for the permit to be issued. The decision shall be issued within 21 days of the closing of the public hearing.

APPENDIX 1

CHECKLIST OF INFORMATION TO BE FILED

I. Notice of Intent (hereafter NOI) and Supplemental Form for Riverfront [Stream] Area, if applicable, with the following support material.

- A. 8-1/2 x 11" USGS Quad Map noting project area.
- B. 8-1/2 x 11" Flood Plain Map of area (FEMA FIS maps available for viewing at the Conservation Office).
- C. Narrative - at the applicant's discretion, to provide detail to clarify the proposal.

II. Plan(s) (Required Format and Information)

A. Plan(s)

1. Topographic plan prepared by an engineer, land surveyor, or landscape architect registered in Massachusetts showing existing conditions.
2. Site analysis plan, if topography is very irregular.
3. If more than two sheets required in the plan set to detail the proposed work, provide cover sheet showing a composite of all work proposed and an index of the sheets.

B. Format and Information

1. Scale - no smaller than 1" = 50'.
2. Sheet Size - 8-1/2" X 11" to 24" X 36". Larger sheets may be used for complex large projects.
3. Title Block - located in the right-hand corner or on the right side, shall incorporate name and address of the project; name of the property owner or applicant; name, address and imprint of the professional consultant responsible for the preparation of each sheet; date and revision date(if any); and sheet title and number.
4. Other - north arrow, graphic scale, a legend defining signs and symbols used on the plan and not otherwise explained; revision date chart; location of ground water borings and the soil profile resulting from borings.
5. Plan Graphics - existing conditions screened or lighter with topographic contours shown as dashed lines; and proposed conditions clearly differentiated from the existing conditions by use of heavier or bold lines with topographic contour changes shown in solid lines. The contour lines must correspond to known elevations on existing bench marks and to the existing and proposed grades of streets.
6. Delineate the following:
 - a) Wetland boundary showing flags numbered to correspond with numbered flags installed at the site; b) 100 year flood boundary; c) the 50 and 100 foot buffers; d) Riverfront Area; e) the erosion control barrier; f) the limit-of-work line or note if the same as the erosion control barrier; g) recorded easements or restrictions on or crossing the property and location of proposed conservation restrictions noting the total restricted area; and h) streets abutting the project, their grades and the utilities to which connections are proposed.
7. Details of following (if applicable):
 - a) utilities and systems pertaining to mitigating stormwater runoff to comply with DEP's Stormwater Standards 1-9 and other drainage systems; and b) erosion control barriers and limits of work.
8. Elevations or sections of buildings, retaining wall or other structures, or landscaping to define design approach to wetland protection.
9. Stamped Certification from a land surveyor or Civil Engineer, acceptable to the Building Department.

III. Stormwater Management Form

To ensure that proposed stormwater control designs meet DEP's Stormwater Management Policy. (See further explanation on the form.)

IV. Drainage Calculations

If applicable, provide drainage calculations to support systems or design features proposed to mitigate impact on the wetlands to comply with *DEP's Stormwater Management Policy*.
